

Charter vs the market — where we stand

Relative performance vs cable peer (Comcast / CMCSA) and broadband attackers. Gaps signed vs CMCSA: negative = Charter worse; positive = Charter ahead. Q1 2026 anchor; Q2 labeled later public fact. Recreated from the Cursor canvas (canvases do not export to PDF natively).

Definition note: CHTR = total Internet; CMCSA = domestic residential broadband. Mobile = Spectrum Mobile vs CMCSA domestic wireless. 1Y/5Y stock returns = secondary screeners — verify before pitching.
